PROFILE

I am a Highly Resilient, enthusiastic, and logically driven programmer looking to kick-start my career in Software Development. I am a results-driven professional and decided to pursue a role as a Software engineer because I'm fascinated by the tech industry and what I could potentially do. Recently embarked on a Full-stack Web Development Bootcamp gaining proficiency in Javascript, Test-driven development, PSQL, and React

WORK EXPERIENCE

Trainee Software Engineer - Northcoders

10/2023 - 01/2024

Northcoders is a 13-week software development training program whose primary goal is to help individuals acquire the skills and knowledge needed to become software developers and launch their careers in the tech industry. The course I graduated from was Software Development Bootcamp which covers a mixture of back-end and front-end with a focus on building web applications.

Projects:

- **NC news(Back-end)** - <https://github.com/fabiodplacerda/nc-news>

The NC News API was developed using Javascript, PSQL, and TDD Supertest. This project was created to emulate the construction of a real-world backend service, similar to platforms like Reddit.

Floor Supervisor - Flippers Roller Boogie Palace

12/2022 - Present

- Trained new hires in company policies, procedures, and products.
- Set goals and conduct reviews for the team's growth.
- Created schedules for peak coverage, considering staff availability.
- Efficiently handled customer complaints to ensure prompt resolution and satisfaction.

Senior Content Moderator - Accenture

03/2018 - 11/2022

- Managed content moderation for the Portuguese/English market.
- Handled user account recovery, providing customer service.
- Guided the team to success through strategic planning, KPI target implementation, and aligning short-term and long-term goals to achieve objectives.

Logistics Assistant - Bidfood Portugal

04/2016 - 10/2017

- Proficiently handled product management tasks with a focus on confidentiality.
- Effectively managed stock, invoices, and import/export operations.
- Devised organized storage systems to enhance stock organization and retrieval while overseeing delivery drop-off schedules.
